MESSAGE FROM LAURALEI : I am Ariana, and I am most pleased to be with you tomorrow night and to talk with you. I am going to give you a self healing technique that is probably probably one that you have not known before and that we often use in the realms where I come from. And when you have any living thing and it does not matter what it is, the living thing has an urgency to grow and become what it was meant to be. And so all of the living things, not only people or animals, but plants and organisms, all things have an urgency within them to grow and be calm. And if we think about tapping into that part of us that begins to multiply and grow from the moment of our conception and expediently. From the moment of our birth, we multiply and grow into what we call adulthood. And from that aspect, many of you bought into and leave that at that time, the growth cycle stops in a physical sense. It may continue in a mental and perhaps emotional and spiritual sense. However, it is not necessary for the physical aspect to stop in its reproduction and growth cycle. All things. If we look at some of the different plants, some of the different trees on the planet, they don't stop growing. They don't stop growing. Evolving and increasing in size height with each season. And we don't have to stop that in ourselves. And we'll find that as long as we are in a process of renewing ourselves and increasing them, we will find that we will be less sick, more young looking. We will have more energy and we will feel better and we will have renewal. Because as we grow, we are producing more rapidly those cells that are needed to expand our growth, as well as replacing cells that are of no longer used to us. Elite. Take a moment of quiet contemplation. And we sit quietly and move into our inner south. And we find at the base of our spine, not from the outside of the base of the spine, but rather from the inside of the body at the base of the spine. And we find at the top of the spine, Wood has been known as the thymus gland. And at the bottom of the spine we can find growth hormones. So these two aspects are important for all that I have just previously stated. So when we focus on the basis of the spine from inside the body, think of moving your Astral hands or your focus to that part of you. And we want to flood into that part of you, the Stardust that is all around and creates and is made of everything. Makes everything. And we moved Stardust into the base of the spine, creating a bubble there. Or pocket that forms and becomes growth hormones, and we move up the spine to just below, or just right in that area, and we do the same thing from the inside, we pull or magnetize the startups into, to the body, rebuilding that sinus gland, and then. And at the very top of the spine, a few inches above it, we're going to move into the pituitary gland from

the inside of the body, and we're going to do the same thing. We're going to pull or think of a magnet pulling the Stardust into the pituitary gland and activating it, rejuvenating it. And if you think of bringing in Stardust into these aspects of your body, because that is what your body is made of, and those aspects tend to wither and deplete. As you grow older, then you will find that you will begin to have an effect on those problems that are associated with growing older. And if you do this a little bit every day, you will begin to see hopefully a change in the body for a positive way and then take your focus away on to exhale.

PRIVATE: ODEN & USUI REIKI LESSONS/CERTIFICATION **AVAILABLE WITH DAVID - CALL & SCHEDULE!**

WHAT IS ODEN REIKI? TAKE USUI & ODEN REIKI FOR ONE PRICE! How does Oden Reiki Work? Everything alive has a Life Force Energy, Aura or Shield around it. We know it can be photographed and we think many intuitive people can see it. What exactly is this shield and what is its function while we exist on the physical plane? The Aura is a series of rings of energy that encircle and nourish our physical and spiritual bodies. The inner ring usually remains the same color in our lives and it is the vibrational frequency we used to enter this physical plane. The middle and outer rings change frequently. The patterns and colors contain all we are, all we have experienced and everything we are about to. This is what a clairvoyant often tunes into when reading a person. If we have any kind of dark or heavy pattern in our middle or outer auras, we might have a corresponding condition in our physical, mental or emotional bodies. Rather than pulling the energy out or pouring light into it, Oden Reiki matches the frequency of such energy, surpasses and then shatters it. Much in the same way Ella Fitzgerald did in the 1960's Memorex Commercials, when she shatters a glass by hitting a high note. In easy terms, Oden Reiki is instantly in its results to purify the Aura, or Life Force Energy Field of anyone or anything. Within minutes the offending energy pattern no longer exist as it was, it has been shattered to raw energy to be returned to the first spiritual plane of Energy. This in turn can cause drastic and instant changes in the physical body.

***HOW TO PROGRAM A CRYSTAL:** Crystals grow. Crystals have a natural pulse; because they are always growing, this pulse makes them ideal to energize all electronics, including your watch, computer, radio, etc. This pulse can be heard on a subconscious level. It is possible to place a thought in a crystal and it will pulse that thought to your subconscious brain. Since the subconscious brain believes & incorporates whatever it hears repeatedly, you can make positive changes in your life by using crystals. Sit quietly, place the crystal in your right hand, and holds it to your third eye. Visualize and repeat what you want to change in the crystal. Does it for at least 3-5 minutes, and then the thought withholds? Send love to the thought and the crystal. Surround the crystal with gold light, place by your bed or desk, somewhere where you spend a lot of time & let it do its work!
